## ABOUT

Build a body right and it will give excellent service for many years to come. However there are times when you need your supplier to work with you post delivery and at P.D.Stevens & Sons our relationship with you is not just up to the point of delivery. Our philosophy is that our customer relationship is over the life of the vehicle so that you choose us on its replacement too.

Continued investment in people, equipment and facilities is ensuring we meet the needs of our customers, whilst remaining competitive within the market place and our after sales team complete with service vehicles that come to you when required whether that be accident damage or a service.

## ESTABLISHED 1959

P. D. Stevens and Sons founded in 1959 is a family run business, which has built its reputation on quality, service and innovation.

P. D. Stevens and Sons founded in 1959 is a family run business, which has built its reputation on quality, service and innovation. We have built commercial vehicle bodies onto all makes of vehicles both past and present, working with OE Manufacturers as Approved Converters and meeting their exacting standards of workmanship and integrity of installation. With recent developments of Type Approval, P.D.Stevens & Sons continue to work with the Governing bodies and industry partners in being able to continue this fine heritage of premium products and services, built and supplied to the most exacting standards.

## OUR BUILD

From a simple Platform body, through to re-Refrigerated box bodies, they have been and can still be designed and built to any legal specification on any chassis from the smallest LCV, a 3.5 tonne chassis cab to a 32 tonne 8x4 rigid. Our design department will use the latest CAD systems to determine the optimum specification that will give you the best solution for your needs

### CURTAIN SIDERS

Our curtain siders are built to the most exacting standards and are available using a variety of designs including buckled or buckles designs and can include a mix of solid GRP sides and curtains if your operation dictates

### TIPPERS

With many Tipper operations payload critical, our design philosophy in building in strength by the mix of exquisite design and the use of innovative materials allows us to create bodies that not only give our clients the payloads they seek as we as a robustness that gives years of trouble free service.

### DROP SIDES

Dropsides have been developed for virtually all types of vehicle from Land Rover Defender chassis to 26 tonne rigids.

### PLATFORMS

Years of experience in building quality platforms bespoke build to customers commercial needs. Varied types of builds with quality products and state of the art engineering.

### DRY FREIGHT

P.D.Stevens offers the ultimate in the construction of box bodies, with captive extrusions to minimise wind resistance and give a cleaner and aesthetically pleasing design.

# ACCIDENT AND REPAIR INC TRAILER REPAIR

We offer an accident repair service for all types and sizes of vehicles. We repair anything from minor bumps and scrapes to heavy damage. Your 'One Stop Shop' repair facility. Our fully trained experienced staff ensure that all repair work is carried out to the highest standard and meets with the rigorous checks carried out by the insurance companies and vehicle manufacturers.

We have the capacity to paint a 40ft Trailer in a combined spray booth/oven. In collaboration with top quality paint supplier ICI.

The Quality finish is synonymous in Shropshire since the company was born.

Our reputation has helped to build a strong relationship with Culina.

Culina's senior management expect high quality finish every time which we always deliver.

# FLEET AND TAIL LIFT SUPPORT

Fully qualified Technicians offer a quality service to our commercial partners on site. With our state of the art support vans we are able to carry out repairs roadside or at customers distributions sites.

Being agents for Del tail lifts we are able to carry out Loler examination, repairs and servicing including weight testing up to 1500kgs. We are also agents for J.R. Industries mobile doors and are fully competent in repairing all types of doors such as Whiting Shutters and Ross & Bonnyman.

In addition to these services on site our mobile service van enables us to operate off site, ensuring essential maintenance can be undertaken at our customers premises out of hours thus negating the need to hire vehicles or have vehicles out of commission.

## PAINT

At P D Stevens we cater for all aspects of vehicle refinishing from the smallest motorbike tank to the largest cattle trailer, from colour changes on new and used tractors right through to custom paintwork on horse boxes. We aim to provide a long-lasting finish that our customers have come to expect with many returning time and time again as their fleets grow.

Our team have many years of experience in all types of vehicle refinishing and are constantly at the forefront when it comes to compliance and customer care. We use PPG and Sikkens paint mixing systems that guarantee standards and colour matching is always market leading.

## LIVERY

Whether your vehicle or trailer has been repaired or we are building a new body we can produce quality livery.

We have a collaboration with 3M Vinyl which has a 5 year guarantee. From vehicle livery to legislation stickers.

# INNOVATION

Innovation distinguishes between products built in the same way or products developed to break the trend and lead the way.

Greg Stevens has devoted many hours to bespoke products to break the trend and many of our bespoke body builds prove this.

## CAGE TIPPER

I D Verde have chosen P D Stevens because of our innovative sliding cage tipper and tool pods. The Sliding Cage has a special structure for longevity and reliability. The Tool Pod is built to reduce potential forced locks to enhance its security qualities.

## CREW CAB LOCKER

We can turn a crew cab vehicle into a security safe locker.
